

CAST Highlight Quote Sheet

“Today’s leaders are focused on migrating line-of-business applications to public cloud providers to lower operational expenses, more easily enable application refactoring or speed of adoption of new services such as real-time business analytics and artificial intelligence. Whether they are in a ‘lift and shift’ mode or refactoring applications, enterprises can migrate applications more quickly to any cloud provider by utilizing CAST Highlight’s profiling and recommendation capabilities.”

- Dr. Scott Ottaway, Research Director, IDC

“With CAST Highlight, organizations will easily detect the applications which are the best value-candidates to migrate to the cloud, but also those which will be easier to migrate thanks to the code-level analytics the solution brings.”

- Samuel Matias, Agile & DevOps Lead, Microsoft

“CAST Highlight should be of great help for any company that needs to migrate its application portfolio to the cloud.”

- Stephane Goudeau, Lead Cloud Architect, Microsoft
